

SLAMM SCOOTERS

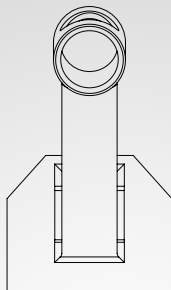

2021 COLLECTION

TANTRUM V9

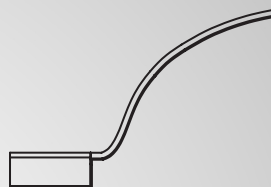

Slamm's Tantrum once again is combining bold colours and decals with high end specs. Whether it's for commuting to school or for learning first tricks, the Tantrum V9 is the perfect introduction to scooters. Swirl Team grips and coloured wheel PU, combined with both front and rear deck blocks, Slamm's exclusive Coffin Connector and impact resistant bar ends, makes the Tantrum V9 the perfect entry-level stunt scooter, designed for riders of 4+ years!

CLASSIC V9

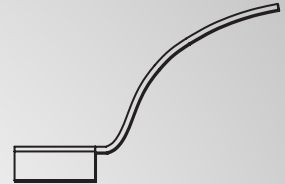

The Slamm Classic V9 is a beginner stunt scooter packed with high spec features. Bringing great value for money, it uses transparent PU on the wheels, coloured grips, Steel Riser T Bar and our exclusive Coffin Connector. The boxed channel deck is complete with front and back deck blocks and the brightly coloured decals gives the collection a modern sleek look. Swirl Team grips and impact resistant bar ends give users control and confidence to start to progress skills and tricks.

CLASSIC V9

NEOCHROME

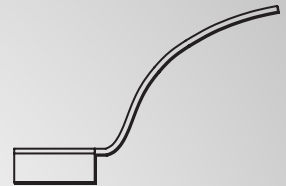

The Slamm Classic Neochrome brings you all the great features you need in a stunt scooter, with upgraded neochrome finishing. Neochrome finished wheel cores are set to semi-transparent PU and the triple bolt clamp also has a neochrome finish. Grey swirl Team grips and grey water decals suit the neochrome styling and the threadless punched steel fork, exclusive Coffin connector and T6 heat treated aluminium deck, mean the Classic neochrome is complete with components that make it as good as it looks.

MISCHIEF V6

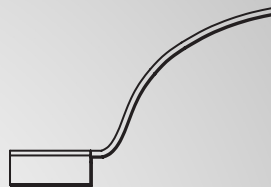

Slamm's Mischief range has never shied away from bold graphics and the V6 is no different. The bright and bold fully wrapped decks are sure to grab attention. On closer inspection you'll see more great features such as the front and back deck blocks and bar end impact protectors. Combine this with the threadless steel fork and exclusive Coffin connector, Internal Semi - Sealed Headset, Threadless IHC System, CNC Headtube Cut Out, Full Hydro Wrapped Deck Graphic, and you will see why this scooter is ideal for beginner to intermediate riders, looking for performance, aesthetics, and value for money.

URBAN V9

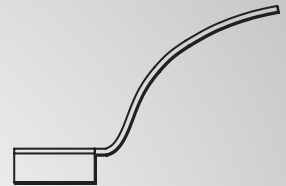

The Slamm Urban V9 scooter takes a modern racing twist on the range. Featuring street style livery graphics, anodised V-Ten wheels and CNC cut clamp, this scooter is both sleek and aggressive, designed for stunts. Coloured 165mm Team grips, front and rear deck blocks, impact resistant bar ends and the exclusive coffin connector all make this scooter a high performance, mature stunt scooter.

ASSAULT V6

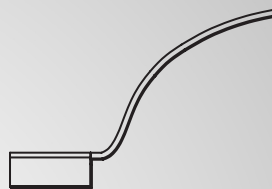

Slamm's Assault V6 sees yet another modern take on laser etched graphics. Matched anodising from the wheels to the T6 heat treated deck ties the scooter together contrasting the bright finish to the black details. The Assault V6 comes with all the finishing touches you need such as the impact resistant bar ends and deck blocks, along with 165mm team grips and a double bolt CNC clamp. With a threadless extruded Aluminium fork and ABEC 9 bearings, the Assault V6 is a complete package for any riding style.

SENTINEL V4

pharaoh

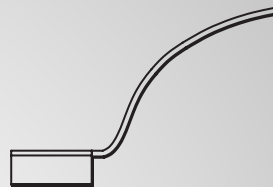

Slamm's Sentinel V4 takes inspiration from ancient Egypt with its stunning laser etched hieroglyphics on an anodised deck with unique CNC cut outs that compliment the graphic. CNC cut double bolt clamp and a forged head threadless aluminium fork are high precision parts for performance riding. Fitted with a Chromoly Steel Riser T-Bar, 165mm Team grips and impact resistant bar ends, this is a scooter designed to perform.

STROBE V4

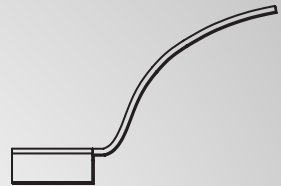

Strobe V4 is a premium scooter packed with performance components and visually impressive full hydro-wrapped decks. The Strobe V4 sees blacked out hollow core wheels, CNC double bolt clamp, and forged aluminium head fork to create a contrasting black silhouette against the energetic deck wraps. With a Chromoly Steel Riser T-Bar, deck blocks and impact resistant bar ends, the Strobe V4 continues the superb quality expected in the range.

TREASON

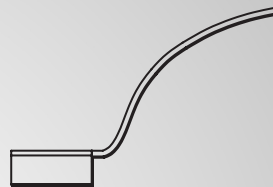

Treason is a top end model designed meticulously creating both a stunning and high engineered stunt scooter. Treason features CNC Cryptic wheels, with a double CNC deck and a CNC double bolt clamp, all set to a blacked out silhouette. The laser etched futuristic deck graphics on the bottom and sides, gum coloured 165mm Team Grips and wheel PU, finish the model to create a new pinnacle, for those that want only the best.
